**The values shown in the Scenario above are for illustration purpose only. If your policy offers guaranteed returns, then these will be clearly marked "guaranteed" in the Benefit Illustration. Since your policy offers variable returns, the given illustration shows different rates of assumed future investment return based on assumed investment returns of 8% and 4%. These are not guaranteed returns and are not the upper or lower limit of what one might get in this policy. The maturity benefit of your policy is dependent on a number of factors, including future performance.

**The actual annuity amount will depend on the prevailing annuity rates at the time of purchase of immediate annuity plan. Once the annuity is bought, the rates remain guaranteed for life.

• How will your funds be invested?

The policy offers only one fund option, Pension Smart Fund 1 on commencement of the policy. For policies where the premiums are discontinued, the Fund Value will be moved to Pension Discontinued Policy Fund.

The asset allocation and investment policy is given below:

Fund Name	Investment Objectives	Asset Category	Asset Allocation Range (%)	Target (%)
Pension Smart Fund 1 (SFIN: ULIF06810/09/12PSMARTF U01121)	To dynamically manage the allocation between equity and debt instruments so as to provide benefits at least equal to the guaranteed benefit.	Money market instruments	0 - 30	15
		Government Securities	50 - 100	70
		Equity	0 - 20	15

Within a fund, if the target investment in one asset class is less than 100%, the remaining balance would be invested in the other asset classes mentioned under a fund.

Whilst every attempt would be made to attain target levels prescribed above, it may not be possible to maintain the prescribed 'target' at all times owing to market volatility, availability of market volumes and other related factors. The 'target' may be attained on a 'best effort' basis. However, the asset allocation will always fall within the asset allocation range mentioned in respect of each fund.

» **Pension Discontinued Policy Fund**

For policies where the premiums are discontinued, the Fund Value will be moved to Pension Discontinued Policy Fund. The minimum guaranteed interest rate applicable on the Pension Discontinued Policy Fund will be equal to the interest rate declared by the IRDAI from time to time. Currently the minimum guaranteed investment return under the Pension Discontinued Policy Fund is 4% compounding annually.

Fund Name	Investment Objectives	Asset Class	Asset Allocation Range (%)	Target (%)
Pension Discontinued Policy Fund (SFIN: ULIF07519/08/13 PDISPOLF01121)	The objective of the fund is to maintain capital value of the fund at all times and earn a minimum predetermined yield, at the rate determined by the regulator from time to time and maintain sufficient liquidity to meet the pay outs. The fund would predominantly stay invested in money market instruments. Risk appetite of the fund is defined as 'low'.	Money market instruments	0 - 40	30
		Government Securities	60 - 100	70

• **Top-ups**

If you have received a bonus or some lump sum money you can use that as a Top-up to increase your investments at any time in your Policy. Top-ups can be accepted only where the due base Regular Premiums or Limited Premiums are Paid-up to date.

The minimum Top-up premium at any time is ₹5,000. There is a guarantee of payment of not less than 101% of total Top-up premium paid at the time of Maturity/Vesting and not less than 105% of total Top-up premium paid at the time of death.

During this period, the policy will be treated as in-force with insurance benefit. The policy will participate in the performance of the invested fund. Mortality Charges, Policy Administration Charges and applicable taxes will be deducted from the Fund Value by cancellation of units. The Fund Management Charge (FMC) will be priced in the unit value.

The income earned on the fund shall be apportioned to the Pension Discontinued Policy Fund. The proceeds of the discontinued policies i.e., Surrender Value shall be payable only on completion of 5 policy anniversaries (lock in period). Policyholder can revive the discontinued policy within two years from the date of discontinuance or expiry date of Policy Term, whichever is earlier. Surrender Value shall have to be utilised according to the options available in surrender section.

If the policyholder opts to revive the policy within the revival period, then at the time of revival the proceeds of the Pension Discontinued Policy Fund and the entire Discontinuance Charge will be paid back to the policyholder by allotting units of the segregated fund at the NAV prevailing at the time of revival.

» **Revival of policy for non-payment of due premiums**

If the due premiums are not paid within the grace period, a revival notice will be sent to the policyholder within 15 days from the date of expiry of the grace period. The policyholder may revive a policy by the payment of the due premium(s) at any time within a period of 30 days from the date of receipt of the revival notice but before the maturity date of the policy.

Policyholder can revive the discontinued policy within 2 years from the date of discontinuance by paying all the outstanding premiums. The revival shall be as per the board approved underwriting policy.

- **Fund Value Details**

- » **Computation of NAV**

The NAV will be computed as per IRDAI (Linked Insurance Products) Regulations, 2013.

The NAV for a particular fund shall be computed as: Market Value of investment held by the fund plus the value of current assets less the value of current liabilities and provisions, if any. This gives the Net Asset Value of the fund. Dividing by the number of units existing at the valuation date (before creation/redemption of units), gives the unit price of the fund under consideration.

In case the valuation day falls on a holiday/non-business day, then the exercise will be done on the following working day.

We reserve the right to value less frequently than daily in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances we may defer the valuation of assets and the extent of deferment period will be as per the Authority's directions at that point of time until normality returns. Examples of such circumstances are:

- When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed otherwise than for ordinary holidays.
- When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.
- During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the fund.
- In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.
- In the event of any force majeure or disaster that affects our normal functioning.
- If so directed by the IRDAI.

- » **Allocation of units**

The Company applies premiums to allocate units in Pension Smart Fund 1. The allotment of units to the policyholders will be done only after the receipt of premium proceeds as stated below:

- In case of New Business, units shall only be allocated on the day the proposal is completed and results into a policy by the application of money towards premium.
- In the case of renewal premiums, the premium will be adjusted on the due date, whether or not it has been received in advance. (This assumes that the full stipulated premium is received on the due date.) Renewal premiums received in advance will be kept in the deposit account and will not earn any returns until the renewal premium due date on which the same will be applied to the unit funds.
- In respect of premiums received up to 3:00 p.m. by the Company along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing unit price of the day on which the premium is received, shall be applicable.
- In case of a holiday or non-business day or where the premiums has been received after 3:00 p.m. by the Company along with a local cheque or a demand draft payable at par at the place where the premium is received, the closing unit price of the next business day shall be applicable.
- In respect of premiums received with outstation cheques or demand drafts at the place where the premium is received, the closing unit price of the day on which cheques/demand draft is realised shall be applicable.

- » **Redemptions**

In respect of valid applications received (e.g. surrender, maturity claim etc.) up to 3:00 p.m. by the insurer, the same day's closing unit price shall be applicable. In case of a holiday or non-business day the closing unit price of the next business day shall be applicable.

In respect of valid applications received (e.g. surrender, maturity claim etc.) after 3:00 p.m. by the insurer, the closing unit price of the next business day shall be applicable.

The unit price for each segregated fund provided under this product shall be made available to the public in the print media on a daily basis. The unit price will also be displayed in the web portal of the Company.

- » **Cancellation of units**

The Fund Management Charges (FMC) will be priced in the unit price of each fund on a daily basis.
