At maturity, the "adjustment" will be deducted from the last instalment of Money back benefit.

"Adjustment" for Money back benefits paid before policy became Paid-up is calculated as:

Total Money back benefits paid before policy became paid-up multiplied by $(1 - \text{Number of premium paid} / \text{total number of premium payable})$

On Survival till Maturity

Money back benefits as a percentage of Paid-up Sum Assured will be paid as and when due.

We understand that there are financial emergencies and to honor such needs we provide the Surrender Value.

The surrender value will depend on the year of surrender, premiums paid, the policy term and premium paying term chosen. The policy will terminate once it is surrendered.

Guaranteed Surrender Value (GSV):

Guaranteed Surrender Value is defined as GSV Premium factor multiplied by the total premiums paid, plus GSV Guaranteed Loyalty Addition Factor multiplied by Guaranteed Loyalty Additions accrued till date of surrender less any Money back benefits already paid.

The details of GSV Premium factors and GSV Guaranteed Loyalty Addition Factors are given in the policy document.

Special Surrender Value (SSV):

The SSV is reviewable and shall be determined by the Company from time to time, subject to prior approval of IRDAI. You are requested to get in touch with us for the applicable SSV for Your Policy.

The company reserves the right to change the Special Surrender Value Factor from time to time depending on the economic environment, experience and other factors, subject to IRDAI approval.

For further details on GSV and SSV, please refer to the policy document. The policy will be terminated once it is surrendered and cannot be reinstated.

Grace Period

During the grace period the policy shall continue to remain in force along with all benefits under this policy and claim, if any, shall be payable subject to deduction of the unpaid due premium for the Policy year.

A policy in a lapsed or paid-up condition can be revived during the revival period of 5 years by paying the arrears of premiums along with interest at the prevailing rate of interest. The current rate of interest is 7.5% p.a. and is subject to change from time to time.

On revival of the policy, all the benefits under the Policy will be restored at full level including Guaranteed Maturity Additions.
