Other Features

• Policy Loan

Loan will be available under a policy for up to 70% of the applicable surrender value under the base plan provided the policy has acquired a surrender value. The interest on loan is payable at the prevailing rate of interest applicable to the loan. The prevailing interest shall be equal to 10 year G-sec benchmark effective annual yield as on last working day of previous financial year, round-up to the next multiple of 25 basis points plus a margin of 150 basis points. The rate of interest on loans for FY 25-26 is 8.25% p.a. compounded yearly. Please contact us to know the prevailing rate of interest for policy loan. The company reserves the right to change the basis of determination of interest rate and to revise the applicable interest less frequently than annual.

For other than in-force and fully paid-up policy and, if at any time during the term of the policy, the sum of loan outstanding and unpaid interest on loan outstanding exceeds the surrender value at that time; the policy will be terminated by recovering the loan outstanding amount and unpaid interest amount from the surrender value after giving intimation and reasonable opportunity to the policyholder to continue the policy. The balance of surrender value, if any, will be paid to the policyholder.

For in-force and fully paid-up policy, the policy can't be foreclosed on the ground of outstanding loan amount including interest exceeds the surrender value.

Before payment of any benefit (death, money back, maturity or surrender) for a policy where the loan is availed of, the loan outstanding amount and the interest on loan outstanding will be recovered first and the balance, if any, will be paid to the claimant/s.

The claimant will not have an option to avail loan under the policy after the death of the life assured.
