If a lapsed policy is not revived within the revival period, the policy will terminate on expiry of the revival period.

## Reduced Paid-up

If the policy has acquired a surrender value and no future premiums are paid, the policy may continue as Reduced Paid-up Policy. For a Reduced Paid-up Policy, the benefits under the policy will be reduced as given below:

### Reduced Paid-up Death Benefit

On death of the life assured during the policy term, when the policy is in paid-up status, Paid-Up Sum Assured on Death shall be payable to the claimant(s) immediately on death of the life assured.

Policy Term – 3	15%
Policy Term – 2	20%
Policy Term – 1	25%

## Reduced Paid-up (Continued...)

### Reduced Paid-up Maturity Benefit

On survival of the life assured to the end of the policy term, when the policy is in paid-up status, the following benefits will be payable:

- Paid-Up Sum Assured on Maturity; plus
- Accrued Guaranteed Loyalty Addition (GLA)

There will not be any change in the GLA, if any, accrued under the policy up to the date of policy becoming paid-up. After a policy acquires paid-up status, future GLA, if any, shall accrue as Paid-up GLA.

Accrued GLA is equal to accrued GLA during in-force status plus any accrued Paid-up GLA during reduced paid-up status.

The policy shall terminate on payment of maturity benefit.

Where,

- Paid-up Sum Assured on Death = Paid-up Factor x Sum Assured on Death
- Paid-up Sum Assured on Maturity = Paid-up Factor x Sum Assured on Maturity
- Paid-up Sum Assured = Paid-up Factor x Base Sum Assured
- Paid-up GLA = GLA Rate x Base Sum Assured x GLA Reduction Factor
- Paid-up Factor = (Number of premiums paid)/(Number of premiums payable during the PPT)

Please refer Company's official website for GLA Reduction Factor.

### Revival

A policy in lapsed or paid-up status can be revived within the revival period of five years from the due date of first unpaid premium, but before the policy maturity date. The base plan along with rider benefits, if any can be revived by paying the arrears of premiums along with applicable interest. If the base plan is revived, the rider benefits, if any can be revived by paying the arrears of premiums under the riders with interest at the prevailing revival interest rate.

The prevailing revival interest rate shall be equal to 10-year G-sec benchmark effective annual yield as on last working day of the previous financial year, round-up to the nearest multiple of 25 basis points, subject to a minimum revival interest rate of 6.80% p.a. The revival interest rate will be declared on 1st April and will be applicable for the financial year. The company reserves the right to revise the applicable revival rate of interest at an interval other than annual and/or change in basis of determination of revival interest rate. The policyholder whose policy is in lapsed or paid-up status, in order to revive the policy, may request the company for the revival quote. The revival interest rate for FY 25-26 is 6.80% p.a. compounded yearly. Please contact us to know the prevailing rate of interest for revival of policies.

The revival of the policy and riders, if any, will be subject to company's Board Approved Underwriting Policy.

On revival of the lapsed or paid-up policy, the policy will be eligible for all benefits (without any interest) as applicable for an in-force policy. All due Guaranteed Loyalty Addition will also accrue as applicable to an in-force policy.

If a lapsed policy is not revived within the revival period, then the policy will be terminated at the end of the revival period.

### **Surrender of the Policy**

The policy shall acquire a Surrender Value after completion of first policy year provided one full year premium has been paid.

The Surrender Value payable during the policy term is higher of:

- Guaranteed Surrender Value (GSV) and
- Special Surrender Value (SSV)

### **Guaranteed Surrender Value (GSV)**

The policy shall acquire a Guaranteed Surrender Value if all due premiums have been paid for at least first two consecutive policy years in full.

Guaranteed Surrender Value is calculated as below:

$(GSV \text{ Premium Factor} \times \text{Total Premiums Paid}) + (GSV \text{ GLA Factor} \times \text{Accrued GLA till date of surrender, if any})$  less Money Back Benefit paid, if any

Please refer the policy document for GSV Premium Factor and GSV GLA Factor.

### **Special Surrender Value (SSV)**

Special Surrender Value shall become payable after completion of first policy year provided one full year premium has been received.

The applicable SSV shall be reviewed annually based on the prevailing yield on 10 Year G Sec and the underlying experience. You are requested to get in touch with Us for the applicable SSV for Your Policy.

If the policy is Surrendered, it cannot be reinstated. The policy will be terminated once it is surrendered. Policy cannot be surrendered after the death of the life assured.

- The rate of interest on loans for FY 25-26 is 8.25% p.a. compounded yearly.
- For other than in-force and fully paid-up policies, if at any time during the term of the policy, the sum of loan outstanding and unpaid interest on loan outstanding exceeds the surrender value at that time; the policy will be terminated by recovering the loan outstanding amount and unpaid interest amount from the surrender value
- Before payment of any benefit (death, survival, maturity or surrender) for a policy where loan is availed of, the loan outstanding and the interest on loan outstanding will be recovered first and the balance, if any, will be paid.
- The Claimant will not have an option to avail loan under the Policy after the death of the Life Assured

### Suicide exclusion

In case of death of life assured due to suicide within 12 months from the date of commencement of risk under the policy or from the date of revival of the policy, as applicable, the nominee or beneficiary of the policyholder shall be entitled to 80% of the total premiums paid till date of death or the surrender value available as on the date of death whichever is higher, provided the policy is in-force with full or reduced benefits and the policy will terminate.
